In the **afternoon session**, an introduction programme regarding the special camp has been carried out. Then we all went to the people of this area to discuss about the problems of society regarding cleanness. At the last hour a programme has been scheduled about **Dengue awareness campaign** talked by Dr. Moutushi Mandi, Department of Zoology, The University of Burdwan. She talked elaborately about the following points:

- How do the mosquitoes of dengue disease bear in watery area?
- How do the diseases spread?

- Why will we remain alert to prevent this disease?
- Etc.

This Dengue awareness programme has ended with a very good moral with us.

In the 3rd day (10.04.2023) of the special camp, free coaching was held on taking about 20-25 children of different age from 7:30 to 10:30 am. **(Morning session)**

In the **afternoon** session, The programme regarding “**Health Camp**” was established. In that programme, Dr. S. Pramanik, medical officer of BU, was present to check up health of the people who are residing at the Goda area. He identified the health problems of 20 persons approximately and prescribed medicine for them. All the volunteers were ready to do everything helpful to do the health camp programme a great success. They all noted the required medicines and decided to go to the medicine shop to get them.

In the 4th day (11.04.2023) of the special camp, free coaching was held on taking about 20 children of different age and class from 7:30 to 10:30 am. **(Morning session)**

In the **afternoon** session, The programme was started with cleaning by the volunteers. They spread bleaching powder beside the drains, watery area, pond etc.

In the 5th day (12.04.2023) of the special camp, free coaching was held on taking about 20 children of different age and class from 7:30 to 10:30 am. (Morning session).

In the afternoon session, a 'Tree plantation' programme was held on in a area near Goda. The volunteers brought many plants such as, mango, jamun, mehagini, plants etc. The programme was inaugurated with some tree plantation by our Vice chancellor Prof. Goutam Chandra.

Then our volunteers planted several plants around the area and put fence. Then Vice chancellor Sir distributed medicines among the needy people for whom medicines were prescribed by doctor in past day. He also distributed Neem oil among many people to prevent mosquito attack.
