

Language and communication skill

The University of Burdwan regularly organizes activities related to language and communication skills. Such events help them articulate their thoughts clearly and engage in meaningful dialogues, which are crucial for success. Two **Language Laboratories** for language proficiency have been established by the University to nurture the language and communication skills of the students. Also, the departments offering course like management, mass communication equip the students with the required language skills to become more employable. The Placement and Students' Welfare Office, in collaboration with different agencies organizes events to enhance the language skills of the students. Additionally, the learning foreign language department of the University through offering courses on Russian, German and French is increasingly encouraged to enhance cross-cultural communication skills, preparing students for international careers.
